

KINESTHETIC

AIM OF LESSON

The main goal of our group was teaching English grammar through movement, in a way that kinesthetic students could easily understand. We focused the lesson on the Imperative tense.

HOW TO

For our lesson we chose to dance the folk song «CIRCASSIEN» and so, we used imperative statements to explain dancing movements. The main instructions were:

- Go four steps forward and four backward
- Turn around
- Clap your hands
- Raise your hands
- Take your friend's hands
- Make a twirl with your friend

EXPOSITION

Two students taught instructions as if they were teachers and after performing the first time, the group invited the others to dance with them.
